

AI Dialogues | Episode Three

Jul 2, 2024

Welcome to AI Dialogues, where we help demystify AI to answer your questions about the technology and its impact. Through this series of conversations with industry leaders, we will delve into the key aspects of #MakingAIReal including use cases, ethics, skills, data strategy, and much more.

In this episode, **Dr. Amith Singhee, Director, IBM Research India and CTO IBM India & South Asia** catches up with **Dr. Pushpak Bhattacharya, Professor, Dept of Computer Science & Engineering, IIT Bombay**. They talk about the velocity, variety and the sheer volume of multilingual data available in India that can be used for building powerful #AI models to solve complex problems. They also advised students to focus on building strong foundational skills in AI to stay relevant.
