LTI and IBM to Expand Global Alliance to Help Organizations Accelerate Digital Transformation with Open Hybrid Cloud

LTI and IBM plan to establish center of excellence to integrate solutions with customers

Mumbai, India - January 14, 2021 : Larsen & Toubro Infotech (BSE: 540005, NSE: LTI), a global technology consulting and digital solutions company plans to expand its multi-year, global alliance with IBM (NYSE: [IBM](#)) to help businesses transform their operations through open hybrid cloud adoption. With the proposed center, LTI will help their clients migrate and modernize core business applications leveraging IBM's open hybrid cloud platform built on Red Hat OpenShift

LTI has developed industry ready solutions using hybrid cloud capabilities from IBM including Cloud Pak for Data and Cloud Pak for Automation, and offerings that integrate IBM Watson solutions, to help their clients automate, secure and update their business processes and applications. These include **iDigitalization** to automate workflow and digitize enterprise business processes, **iMaximize** to help modernize the enterprise integration landscape with pre-built accelerators, and **Make the Shift** to help overhaul legacy workloads.

As part of this relationship, LTI and IBM plan to establish a center of excellence in Bengaluru (India) in 2021. This center will offer a comprehensive suite of IBM's Cloud, Automation, Integration, Data & Artificial Intelligence (AI) solutions to foster innovation. IBM plans to provide training to LTI employees to facilitate creation workshops and IBM solution development for LTI clients.

Sudhir Chaturvedi, President-Sales and Executive Board Member, LTI said, "Some of the world's leading organizations trust LTI as the partner of choice in enabling their digital transformation journeys and modernizing their existing technology landscape. We are expanding our resolute relationship with IBM to allow customers to seamlessly embark on hybrid cloud environment with best-in-class automation and Integration."

Evaristus Mainsah, GM, IBM Hybrid Cloud and Edge Ecosystem said, "We look forward to expanding our collaboration with LTI to help customers across industries migrate and modernize their mission-critical workloads by leveraging IBM's secured and open hybrid cloud solutions. LTI's deep domain knowledge, coupled with IBM's open hybrid cloud and Cloud Pak offerings powered by Red Hat OpenShift, can help enterprises accelerate their digital transformation."

LTI is a Platinum Business Partner of IBM and part of the IBM Hybrid Cloud Ecosystem. IBM's ecosystem initiative supports partners of all types, whether they build on, service or resell IBM technologies and platforms, to help clients manage and modernize workloads with Red Hat OpenShift for any cloud environment, including the IBM public cloud. Red Hat OpenShift is the industry's leading enterprise Kubernetes platform. The IBM public cloud is the industry's most secure and open public cloud for business. With its security leadership, enterprise-grade capabilities and support for open-source technologies, IBM public cloud is designed to differentiate and extend on hybrid cloud capabilities for enterprise workloads.
